

## Jaw crusher mobile plant(portable crusher)

### Introduction to the [jaw crusher](#) mobile plant([portable crusher](#))

The **jaw crusher mobile plant** we company have developed is a series of novel rock crushing equipment ,which have also expanded the crushing concept in the coarse and fine crushing area .And the design principle of [jaw crusher mobile plant](#) is based on the customers point and have taken the obstacles the complicated crushing plant bring to the customers as the primary solution plan, which have really provided the hardware operation project with the advantages of convenience, high-efficiency and low

operation cost.

### Technical features of [jaw crusher](#) mobile plant([mobile crusher](#))

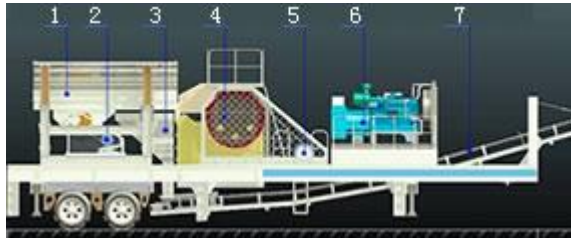

- 1.integrated set machine
2. flexibility
3. lower freight cost
4. direct function to the materials
5. flexible equipment
6. reliable and convenient maintenance

### Main structures of [jaw crusher](#) mobile plant

1. vibrating feeder
2. feeder electric motor

3. feeder receiver
4. jaw crusher
5. jaw crusher electric motor
6. conveyor standard
7. conveyor extension

1. vibrating feeder
2. feeder electric motor
3. feeder receiver
4. jaw crusher
5. jaw crusher electric motor
6. diesel generator
7. conveyor

## Application of the [jaw crusher](#) mobile plant

The **jaw crusher mobile plant** can be widely applied in the road construction, metallurgy, energy and city infrastructure ,etc.

## Main technical parameters of the [jaw crusher](#) mobile plant

Parameter model	Transport length(mm)	Transport height(mm)	Transport width(mm)	Max. length(mm)	Max. width(mm)	Height of belt conveyor(mm)	Total weight(ton)
YF938J69	12000	3900	2450	4700	2900	3100mm	42
YF1142J710	14000	4400	2450	5100	3100	3300mm	55
YF1349J912	15500	4800	3000	5600	3300	3500mm	72
